DETAILED ACTION

Allowable Subject Matter

1. Claims 14-18 are allowed.
2. The following is an examiner's statement of reasons for allowance:

The prior art of record neither anticipated nor rendered obvious that a method of manufacturing a liquid crystal display comprises various steps in which fabricating a liquid crystal display panel whose speed of response of a liquid crystal varies dependent on a pixel region by the following specific steps in such ordering of the relationship between elements recited in claims 14 and 15:

sealing the liquid crystal mixed with a reactive monomer between two substrates provided opposite to each other; tilting liquid crystal molecules in part of the pixel region of the liquid crystal display panel utilizing difference in the speed of response of the liquid crystal; polymerizing the reactive monomer to impart a different pre-tilt angle to the liquid crystal molecules with respect to a surface of one of the substrates in part of the pixel region; and forming an area having a different threshold voltage in part of each pixel region as claimed in claim 14, and wherein the step of tilting the liquid crystal molecules in part of the pixel region comprises a step of applying a predetermined voltage that is a repetition of a high voltage and a low voltage to the liquid crystal at a frequency determined based on the speed of response as claimed in claim 15.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

Art Unit: 2871

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Mike Qi whose telephone number is (571) 272-2299. The examiner can normally be reached on M-T 7:30 am-6:00 pm.
